

# X BSPP Nozzles

## Automatic shut-off nozzle for full-service and self-service stations.

- X nozzle shuts off when the gas tank is full.
- Aluminum reinforced spout bushing keeps the spout tip round and acts as a captive fastener to prevent tip-and sensor damage.
- Nozzle is equipped with a unique Flo-Stop® device that shuts off the nozzle if it falls from the fill tank or raises above the horizontal.
- *StreamShaper*® reduces turbulence for straighter fuel flow and less splash back spillage.
- Comes standard with smooth full grip guard.
